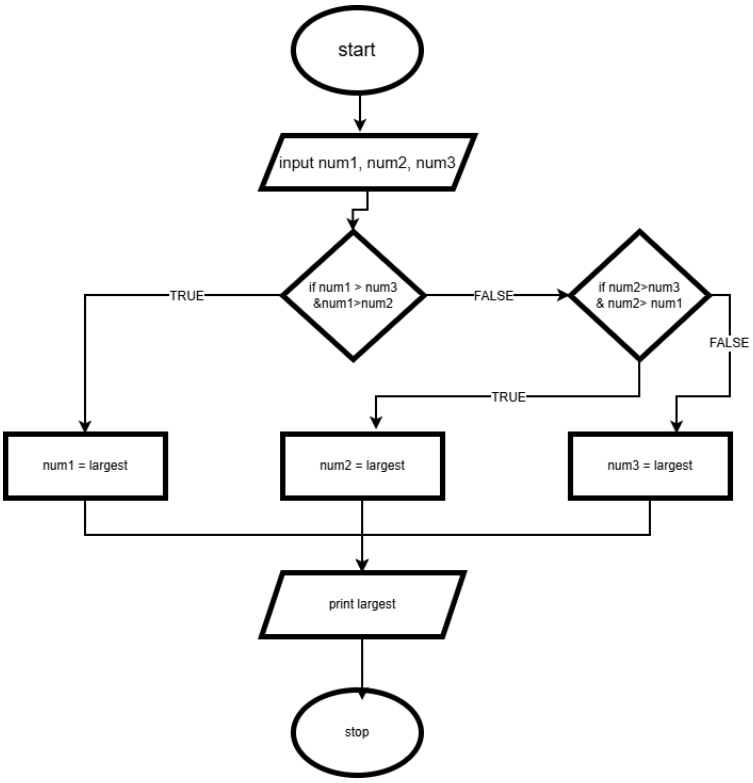
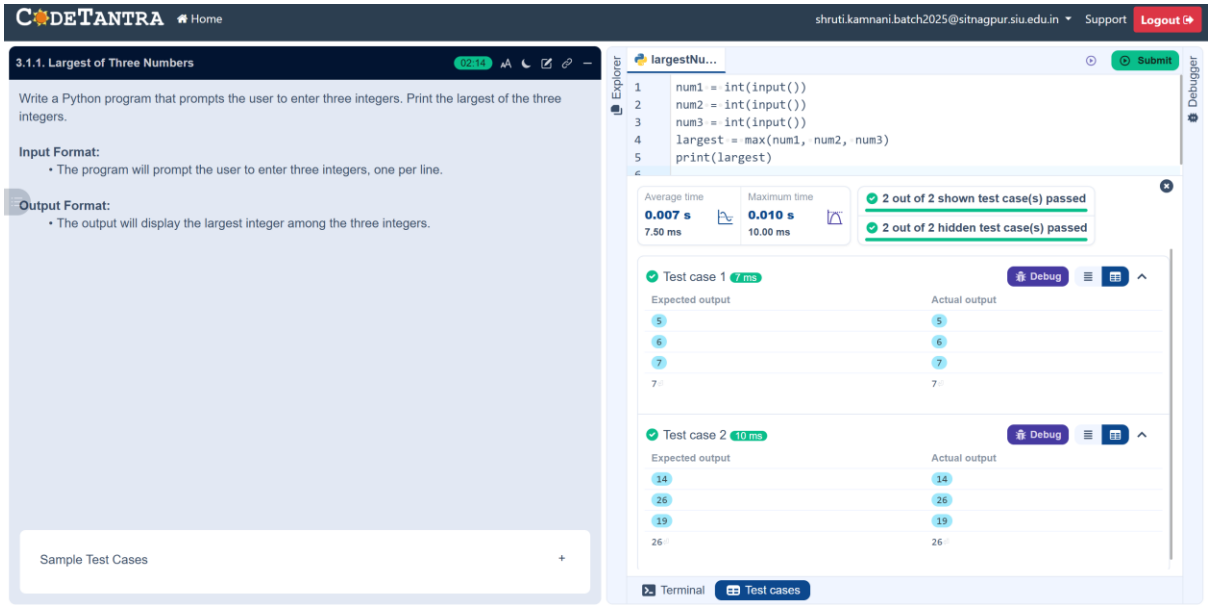
3.1.1 Largest of Three Numbers

Algorithm:

1. Start
2. Read num1, num2, num3
3. Set largest = max(num1, num2, num3)
4. Print largest
5. stop

Flowchart:





Code:

```
num1 = int(input())
num2 = int(input())
num3 = int(input())
largest = max(num1, num2, num3)
print(largest)
```
